Boulder, CO

Summary

I am a developer with skills and experience across the stack, from DevOps all the way up to front end design. Through starting my own company, I gained enthusiasm for working with customers to understand their needs and set requirements. I thrive most in collaboration with others, and I work to make an immediate, positive impact.

Education

University of Colorado - Boulder, CO — B.S. in Computer Science, May 2018

Experience

Co-Founder, Hearth; Boulder, CO — 2017 - present

We built a smart home hardware product from the ground up through rigorous customer development, project management, and focused technical work.

Software Engineering Intern, Visa Inc.; Denver, CO — Summer 2017

As a member of Visa's Network Processing team, I revamped critical internal data visualization tools and deployed my solutions to the company's worldwide network.

Director, HackCU; Boulder, CO — 2016 - 2018

As Director of HackCU, Colorado's largest collegiate hackathon, I slashed costs and scaled the event from 150 to 600 participants with a focus on inclusivity.

Lead Web Designer, ASSETT, CU Boulder; Boulder, CO — 2015 - 2016

I trained new employees and led the technical process of redesigning and migrating dozens of university department websites onto a brand-new platform.

Coding

Python, C++, JavaScript, Java, HTML, CSS, MySQL

By fully understanding the fundamental principles of programming languages, I adapt efficiently to new software stacks and environments, resulting in diverse, flexible abilities in programming and web development.

Skills

In addition to my coding skills, I excel in customer development, graphic design, and conversational Spanish. I have the ability to self-teach and procure important information with minimal supervision.

Personal Interests

I am passionate about the outdoors, especially skiing and mountaineering. I play the guitar and enjoy traveling to new places, most recently France.
