Profile

An enthusiastic, creative, and highly skilled developer with a multitude of coding and leadership experience. I am now seeking to contribute my discipline, expertise, and communication skills while expanding my knowledge.

Coding

C, C++, Python, Java, Scala, MySQL — 2014 - present

I have been working inside and outside the classroom to excel at several languages. I adapt well to new languages by applying the central principles of programming.

HTML, CSS, JavaScript, Wordpress, Drupal — 2011 - present

I have been learning full stack web development since high school and have gained lots of experience in front end design.

Education

University of Colorado - Boulder, CO — B.S. in Computer Science, 2018

Experience

Software Engineering Intern, Visa Inc.; Denver, CO — Summer 2017

As a member of Visa's Network Processing team, I deployed production code to the company's worldwide payment processing infrastructure.

Director, HackCU; Boulder, CO — 2016 - present

As Director of the Rocky Mountain region's largest hackathon, I communicate with sponsors and manage team members to host hundreds of students for 24 hours.

Lead Web Designer, ASSETT, CU Boulder; Boulder, CO — 2015 - 2016

Utilized a wide array of web development techniques to create and manage critical university websites. I also performed training of new employees.

Skills

As a computer science student with experience outside of traditional college classes, I have an accelerated skill set for my grade level, including front-end and back-end web development, programming, graphic design, and proficiency with conversational Spanish. I have the ability to self-teach and procure important information with minimal supervision.
